

You aren't alone and you haven't been for quite some time.

Right now, that's actually good to know.

You see, other men have made a choice similar to yours to have an abortion. Like you, they had to process their pain and regret. Today, they have found freedom and they look forward to sharing with you the way out.

Give them a chance...

**It's true,
we're here to help.**

My name:

How you can reach me:

Best time to reach me:

not alone

We understand, really...

It's not about judging your heart. If you're here, today, reading this pamphlet it means that just like some of us, you have been part of an abortion.

Know this - we are not going to judge your heart.

That's between you and God alone.

However, we can come along side of you and help you prepare a logical plan to emotionally and spiritually climb out of whatever pit you've found yourself in as a result of your part in a previous abortion.

If you're willing, we are.

This is solely up to you. We strongly admire the fact that you have made it to this point in bringing this truth into the light.

Yet, you need to know something very important.

- We can't do this for you, it has to be your desire. -

This journey to heal the wounds of the past and reconcile your personal and spiritual account must be your desire, not ours.

A question you might consider would be this:

"What is your motivation for being here and dealing with this issue of the past, today?"

Men who have 'been there, done that' are going to ask you this. Be prepared.

What you can count on from us. Most importantly you can count on the fact that we will respect you in every way possible. Your freedom from being held a captive is of utmost importance to us. Respect is paramount.

Secondly, you can count on us to probe and go deep.

If you're going to clean the emotional and spritual basement of your pain and regret, guess what? You can count on us to go down there with you.

Finally, you can count on us being a friend who wants to see you succeed in every way.

Additionally. You may want to consider contacting this, or other, organizations in your home town and abroad as they are an additional resource for men.

Go ahead and give them a call, they would enjoy hearing from you.
