

you're needed

Today our center is preparing to work with men.

For so long we have worked with women and worked with them well. It's now time to set our sights on leading young men.

That's where you come in. Simply put, you're needed and we know that we can't do it on our own. Men are essential to our success.

Men who can volunteer a brief amount of time will be trained and encouraged to lead key volunteer positions to meet the needs of other men in our community.

Our goal:

Save lives through the hearts of men

Guide men to be fathers

Re-establish men's view of manhood

Give a family a fighting chance

We invite you to come in and visit us today.
